CITY CLERK'S OFFICE

I received a letter concerning my car. It was towed away by a policeman, an elderly man. He stated he had the right. It was told to me. I went into the Harley and Pat down and they said it was alright to leave it there. The air bag was broke and they called my son in Brake, David Martin. They checked my driver's licence and found out it is A.I. I've been driving since I was sixteen years old. My son came to get me. I did not feel the effects of the air back until I got home to my apartment. My legs started to bleed and toes and I blacked out. The manager called 911. I was near death in intensive care.
