Hello,

I live and have loved Milwaukee for many years. I plan to be in this wonderful city for as long as I can. I am begging this council to NOT allow a data center to be built waiting county limits, within 10 miles, within the state AT ALL. NO ONE WANTS THIS. NO ONE WANTS THIS. I do not want myself or our neighbors to be worried about water resources. This will not increase employment as much as it will absolutely desecrate our communities' water, energy, land, and our entire cognitive function. Listen to the people. No one wants this. Only your high paying donations will have you be convinced and if so you are pathetic and an absolute black hole. Do better. We all want better. Get to it. This will not last for you.

With hope,

Calista Lopez
