Subject: Proposed data center

[Some people who received this message don't often get email from raulmisc@gmail.com. Learn why this is important at <https://aka.ms/LearnAboutSenderIdentification>]

I speak for not only myself, but many of my fellow community members when I say I am absolutely against a data center of any sort in our city. I am not okay with the water that we need to cook, drink, and clean with being used in this way. A data center will do far more harm, and lose the elected officials far more popularity, than it will ever be worth to build. Do not build this under any circumstances
