Re: Historic Preservation Certification Application
Project Number WI210051
Reviewed: **Conditionally Approved**

Dear Lauren Meyer,

On March 1, 2020, the Division of Historic Preservation received a Historic Preservation Certification Application for your property at 114 E Vine Street in Milwaukee. Enclosed is a copy of the signed Part 1 application indicating your house has been determined to be a historic property for purposes of this program.

We have reviewed the Part 2 application and determined the proposed project will meet the "Secretary of the Interior's Standards for Rehabilitation" **if the conditions on the following page are met**. Enclosed is a copy of the signed Part 2 application.

If questions arise during your project, we have many new articles about maintaining and preserving historic buildings that you may find useful: www.wisconsinhistory.org/preserve-your-building

When all work is completed, the project must be closed out in order to claim/retain tax credit.

1. Take photographs showing the whole house from all sides, as well as detailed photos of the specific work that was completed. These photos should be printed in color and of a high resolution.
2. Keep the pink form included with this letter (*Part 3: Request for Certification of Completed Work*). Fill it out with the *actual* costs of the eligible project work, and submit it with the photos of completed work. This Part 3 form, with a signature from our office, will be required by the Wisconsin Department of Revenue to claim the tax credits.

If you have questions about this approval or the conditions, please contact Paul Porter at 608-264-6491 or Paul.Porter@wisconsinhistory.org.

Please take our 3 minute customer service survey. Your feedback is important.

ASSIGNED PROJECT CONDITIONS

Homeowner Copy

PROPERTY NAME:
PROJECT NUMBER: WI210051
114 E Vine Street
Milwaukee

In order for your project to be approved for income tax credits the following conditions must be met. A second copy of these conditions are being provided for your contractor's use. It is the homeowner's responsibility that all conditions are met. Failure to meet these conditions results in project denial.

- 1) Asphalt shingles are recognized as an acceptable substitute to wood shingles however the proposed shingle should not create a new aesthetic. Standard 3 tab shingles or architectural shingles with a slight shadow line are acceptable. Architectural shingles with un-even bottom edges or heavy, fake shadow lines are not acceptable. Dark grey, black, dark brown and reddish brown (earth tones) are the most appropriate colors. Red, green and blue shingles are not appropriate unless there is documentation that this was the historic color.
