To the Public Improvements Committee

Subject: Common Council Resolution File Number 031086

Dear Honorable Members:

Returned herewith is Common Council Resolution File Number 031086 being a petition for an amendment to a special privilege granted to American Bio-Synthetics Corp. for a special privilege permitting the construction and maintenance of building facing material that encroaches into the public way and a door swing projecting more than the 12 inches allowed into the public way at the building known as 710 West National Avenue.

The existing special privilege, Common Council Resolution File Number 86-533 adopted on September 23, 1986, granted permission to American Bio-Synthetics Corp. for building facing and a door swing to encroach into the public right-of-way of West National Avenue.

The current request is to change the name of the grantee of the special privilege to West Grand Corporation for the continued encroachment of these items in the public right-of-way.

We are not aware that the building facing encroachment or door swing projection has had an adverse effect on the general use of the public way at this location. We have, therefore, prepared the attached special privilege resolution, that if adopted, would change the name of the grantee of the special privilege to allow the continued building facing and entrance door swing projection to be maintained in the public way.

Very truly yours,

Jeffrey S. Polenske, P.E.  
City Engineer

James P. Purko  
Director of Operations

Martin G. Collins  
Commissioner  
Department of Neighborhood Services
