Subject: Data Center midtown

Some people who received this message don't often get email from addygermer@gmail.com. [Learn why this is important](#)

Hello City Planner Commissioner,

I am a resident of Milwaukee and am very against the new proposal to build a data centers in Midtown.

Please listen to the people of this city and vote against this proposal.

Another data center in Milwaukee and Wisconsin will greatly hurt our beautiful city. Lake Michigan supports thousands of people and its water source will be effected. Everyone's energy bill will only go up, and it is already high as is. The people should not be paying for the data centers consumption, and we will be.

This center will not bring impact full jobs to our community. Its impact will only be negative. The sound and air pollution as well as its extensive energy consumption will harm our city.

Please listen to the people who you should be serving and say NO to any Data center construction.

Thank you,

Addison Germer
