**Subject:** Opposition to Containers on deck of historic Bradford Beach Boathouse

Dear Historic Preservation Commission Milwaukee,

As a long time Milwaukee East Side Resident, I am greatly opposed to **the lifting by container to put containers on the deck of the historic Bradford Beach Bathhouse** for a "semi permanent" restaurant **as very inappropriate in a historic district.**

The bathhouse is an icon of period architecture. I personally believe that the plan is wholly and completely inappropriate for the historic district and the Bathhouse which is an exemplar piece of Milwaukee architecture.

Sincerely,

Stephanie Van Alyea
