Milwaukee Climate and Equity Plan

- Prior to and since The City of Milwaukee's adoption of our Climate and Equity Plan, **The Milwaukee Police Department has been contributing to a positive change** for our environment.

Electrify Transportation

In 2025, MPD created a charging infrastructure to support our **EV pilot program**.

- The department added Level II chargers at nine buildings.
- Three pursuit –rated EV vehicles and one 'short run' vehicle have been delivered to MPD
- We are waiting on the special equipment to upfit them. These parts are different than what is required for our gas powered vehicles. There is no exact arrival date for parts.
- Also waiting on registration plates for these vehicles from the WIDOT.
- Hope to have vehicles ready for deployment in October.

This is in addition to our continued prioritization of HYBRID PIU vehicles.

Nature in the City

In 2025, MPD added native plants to the area surrounding the MPA monument to help beautify the space and contribute to our sustainable landscaping.

In 2022/2023 MPD removed over 3,000 sq. feet of turf and added native plantings at our Radio Shop and Specialized Patrol Division buildings. This captures over 1,500 gallons of rainwater per year.

Fleet Priorities

- MPD has continued prioritizing the purchase of fuel saving Hybrid PIU vehicle with 28 on order for 2026.
- MPD has been replacing Ford V8 Crown Victoria police vehicles which average 9MPG with Ford Escape Turbo 3Cyl which average 26MPG 4 units are on order for 2026.
- MPD has contributed to fuel savings by no longer allowing excessive idling when conditions allow per SOP.

2025 MPD Amendment Footnotes

- Victim Witness Specialist Survey Request (to be hired).
- Request for full-time LGBTQ+ CLO's (expanded from 2 to 5 liaisons; created a strategic plan).
- EV Vehicles
- Code Red City-Wide and funding exploration (DCD)

AI Inquiry

- The Open Records Section continues to research new AI incorporated technologies that can provide great efficiencies in the review and redaction of reports and body worn cameras/squad cameras.
- Benchmark Analytics (October) AI will assist with bias mitigation as part of our early intervention system and will be used to track UOF, pursuits, and complaints to ensure the fair treatment of our citizens by our members.
- Axon Fleet 3 ALPR tech uses AI to automatically read and compare license plates against "hotlists" of vehicles of interest.
- Axon Evidence.com AI transcribes audio and video redactions (protection of confidential info in adherence with WI public records law).
- AI embedded into Google Search/Microsoft Bing Search, Windows 11 Operating System.
- AI embedded into the Microsoft Office Suite (MS Word, PowerPoint, etc...)
