RE: List of polling locations to be included in resolution file #001846

Resolution file number 001846, sponsored by Alderman D'Amato, is a substitute resolution approving the establishment of election ward lines in the City of Milwaukee. Based on the proposed ward boundaries, the Election Commission has made a good faith effort at associating existing polling locations with the proposed ward changes.

Attached for your review is the list of polling locations with the corresponding ward(s) and a copy of the fiscal note for this file.

If there is a request for further information, please don't hesitate to contact me.
