Some people who received this message don't often get email from pdrapeau1@gmail.com. [Learn why this is important](#)

We The People do NOT want Data Centers in our city.
We are demanding a moratorium on Data Center Development and do NOT want a "Self_Storage" and Data Center in Midtown Center.

You need to realize that We The People see that our Country's current administration fabricates false stories, incites division and only takes care of lining their own pockets. **We now are seeing the same with local politicians**, this is a SEVERE problem that is not being taken lightly.

Politicians and Government Employees work for US - We The People.

Focus on community and the environment not on greed!!! We are watching.

sincerely
Paul
