To whom this may concern, <sup>2017 MAY 31 P 3:07</sup>

I'm writing to seek information in regards to my vehicle reimbursement claim. On March 15<sup>th</sup> at around 5:00 pm or after, school was out. I was driving east on Vliet Street, on 35<sup>th</sup> and Vliet I made a right turn to go south on 35<sup>th</sup> street. As I turned I heard something and my car went into like a divot but my car didn't stop or break down so I continued to drive south. As I keep driving my tire started grinding & I call my mechanic guy because I thought it was my breaks rubbing. I stopped by auto store on Greenfield by walmart bought some break pads and slowly went home to wait for mechanic. The next day I was told I didn't need breaks, return and get a axle. Then to be told to return the axle because it was my hub bearing. On March 22, 2017 I tried to drive to the auto shop on 37<sup>th</sup> and State with my neighbor accompanying me. The wheel wouldn't turn out of the ally it was rubbing too hard. I paid tow company RK Motors Milwaukee \$63.00 on 3-22-2017 with my netspend card. J.D. Harris Auto Shop checked my front passenger side

wheel once it was towed to their lot. Mr. Harris informed me that yes my tire rod was was loose, my ball joint popped as well as my hub bearing. JD Harris had my car for two days then I picked it up 3-25-17. As I was going home I turned around and took the car back to the auto shop because it was driving funny. Mr. Harris drove it around to block and discovered that I also needed a new tire because there was a hump in it on the edge area where it could pop. I went and purchased a front tire for \$30.00 that same day.

Here is the information needed to send for the claim. My phone number I can be reached at is (414) 375-6729 email ChantellWilson15@yahoo.com The claim amount \$475.20, \$65.00, \$30.00 proof of receipt enclosed. ↑ car ↑ tow ↑ Tire

I also reported the issue about repairing the street on the corner of 35th Street and Vliet going South on 35th Street to neighborhood services.
