**Subject:** support for Downer Development

Dear Commission members:

Please support the Downer Ave. project as proposed. I represent the silent majority who support this in our neighborhood. Please don't be swayed by the self-serving agendas of certain members of our community.

It is a shame that many productive members of our community are now forced to spend the time at community meetings counteracting the irrationality of the minority that is afraid change. The self-serving minority is driving the bus of public opinion, which is a shame. It is my sense that the majority of the community supports this project. Thanks again for your patience and support of this project. Please help us improve Downer as planned, it is critical to our neighborhood and our economy.

Kind regards:

Tom Lacy

2929 N. Shepard Ave.
