Subject: self-storage at Midtown

Some people who received this message don't often get email from achou9615@gmail.com. [Learn why this is important](#)

I was reading the Milwaukee Journal and have a suggestion if you are considering approving self-storage at Midtown. What about putting a term limit on self-storage use with an automatic review, for example like 20 years with a review at 15 years? And considering on this year's news there should also be some requirement for fire extinguishers.

Sorry I don't live in the city but wanted to share this thought.
