I wanted to reach out to you and discuss my strong support for Golddiggers. I believe Golddiggers is a great place that brings people together. While this club has been under the ownership of Michael I have found this location is a safe place. I often come to Golddiggers alone: and because of his great security team I have always felt safe while I am there. I have become very close with other patrons who visit this location often over the years because of its great environment. I love that his employees are consistent and provide wonderful customer service as if it was my first time visiting. I support this bar because it is always great to see an African American man attempting to make something of himself. It saddens me to see my favorite local bar closed. I write this email with hopes that you reconsider. Thank you for your attention to this matter.

Sincerely,

Brooksie D. Smith

To whom it may concern,
Goldiggers is currently under scrutiny for violating certain policy's and procedures expected for strip clubs under certain laws. This letter is meant to remediate and comfort any concerns some may have regarding such claims. Any claims against the establishment goldiggers for violating any laws or being the suspect of any legal violation are false. Anyone who perpetuates these claims are perpetuating defamatory information. Goldiggers takes pride in the customer support and satisfaction it gives as well as the professional moral support and work support it provides to its employees, even those dictated under law and licensing professional organizations. claims against these facts are welcome to investigation but are not needed, as we hold our heads high for the amazing black owned business we give daily. I am in full support of this club Sincerely, Kingston Brown

Good morning, my name is Zaneta Mcknight and I just wanted to send an email out for the support of Golddiggers Gentleman's Club located at 4750 N Hopkins Street. I heard that the license was being taken away and I've attended there on quite a few occasions and enjoyed myself. I'm quite sure I can speak for a lot of people that when you're going through something it helps you relax in a positive way for weekend or throw out your weekday. This is a place to come to for a nice social time and that's something that we really need in the community. Having a comfortable place to socialize is always something good for everyone. I would hate to see this company shut down because it is a place where a lot of us are able to enjoy ourselves after a long hard working day. I've never had any problems, it's always been a very good vibe. That's my experience and I would hate to see the doors closed. Also, it creates employment for people so they can provide for their families with the flexible hours that they are able to work. This also helps keep the unemployment percentage rate low and helps a strong working class. Wisconsin is doing better with creating employment and this is part of that strong count for the working class of people. The friendly communication helps a lot of people stay mentally focused and in a positive mood. I'm hoping to be able to have more days in the future to have a relaxing spot to continue to go to. Thank you for your time and have a wonderful day.
