**Subject:** RE: Steve Miner

Dear Council, I would like to provide this recommendation of Steve Miner.

I have had the pleasure of knowing Steve Miner for over 16 years professionally. Steve is truly a professional with an innate ability to teach and mentor all on valuations and assessments, among his other great skills and knowledge, which sets him apart from others. Steve has a passion for assessment and ad valorem and it definitely shows in what he accomplishes.

He is always forward thinking and innovative as well as always puts the entity he represents upfront and center to ensure the best value and solution is engaged. Steve is straight-forward and works hard to always do things correctly the first time around. He always looks to optimize and improve efficiency for cost savings while increasing productivity.

Steve's high character, dedication to his organization, and assessment valuation/technical knowledge are truly and sincerely the best! I am privileged to know Steve and highly recommend him.

Please feel free to reach out to me for more info if needed. Thank you for your time.

Warm Regards,  
Randy
