**FINDINGS OF FACT**

1. Shadi M. Alkhalwaldeh (hereinafter the "Licensee") is the holder of Extended Hours Establishments and Food Dealer Licenses Renewal Applications with Change of Agent and Stockholder for the premises located at 2100 West Hopkins Street in the City and County of Milwaukee, Wisconsin ("Haji's Red Hot"). Said licenses expired at midnight, November 4, 2019.

5. Based upon the sworn testimony heard and the evidence received at the hearing, the Committee finds the following:
  - A. The Licensee stated the previous owner lives in Canada and he had a bad manager. He stated he applied in October to take over the business, but he was never told to meet with the alderwoman. He added that he paid for the license

and waited for it to come in the mail, but it never came. He stated he tried to meet with Alderwoman Coggs last Friday. He added that there are no more violations because he cleaned and fixed everything. He stated that all employees will go to the food manager certification program. He added that the previous owner had family issues and was not at the business. He stated that he will be at the premises all the time.

*Appearing with the Licensee:*

- B. Hazem Amro 2231 West College Avenue stated he is in the new manager and he started working November 3rd. He added that he has the safe food handler certification and the violations came because they're trying to improve the inside. He added that he's working to improve and change the premises and he used to work at Fryerz as a manager.
- C. Mel Shy, 2526 West Burleigh Street stated the people in the risk control program are not present today. There was a change in ownership at the end of July, beginning of August and they're trying to catch up with everything that was in place from the previous owners. She added she was just hired as a manager in September.

*Individual also present:*

- D. Claire Evers, Health Department stated there were 27 food safety violations on the routine inspection in October of 2018. She added there were 4 complaints, and a compliance conference was required to assist the premises with gaining and maintaining compliance. She added in August 2019 there were 7 more food safety violations, and last week there were an additional 14 food safety violations which required the premises to be closed. She stated the manager on site had no idea what the risk control plan was. She added the complaints were verified pest issues.
- E. She stated the November 7th inspection included the following violations:
- F. **WHEN TO WASH:** Employee observed not washing hands before putting on clean gloves.
- G. **PACKAGED AND UNPACKAGED FOOD-COVERED CONTAINERS OR WRAPPING:** Raw fish in the walk-in cooler and cooked chicken in the 2-door prep cooler were observed to be unwrapped or uncovered.
- H. **FOOD CONTAMINATION PREVENTED FROM PREMISE – OFF THE FLOOR:** A box of bakery items being stored on the floor in the walk-in cooler.

- I. **THAWING:** Raw chicken wings are being improperly thawed by holding at room temperature in the wash and rinse compartments of the 3-compartment ware-wash sink.
- J. **EQUIPMENT AND UTENSILS – GOOD REPAIR:** The soft serve machine and the flat top grill are not maintained in good repair. The soft serve machine is not functional and has a foul odor inside. There is a gap between the flat grill surface and the back grill wall, which allows grease to leak onto the stainless steel table underneath. There is a grimy cloth on the stainless steel table to absorb grease.
- K. **FOOD CONTACT SURFACES – SANITIZED BEFORE USE AND AFTER CLEANING:** The cutting board and food prep table in the kitchen area are not being sanitized before use and after cleaning.
- L. **UTENSILS, EQUIPMENT AND LINENS – STORING PROHIBITIONS – CLEAN DRY LOCATION:** Single service containers are improperly stored on a shelving unit below an exposed area of ceiling where they are subject to dust, debris and insulation.
- M. **PLUMBING – SYSTEM MAINTAINED IN GOOD REPAIR:** The plumbing is not maintained in good repair. The water to the prep sink and mop sink is not working. The air gap below the prep sink is being covered with a plastic bag due to its foul odor.
- N. **HAND DRYING PROVISION:** No single-use toweling or other hand drying device available at handwashing sink in food prep area or employee rest room for hand drying.
- O. **CONTROLLING PESTS – INSPECTING PREMISE:** Mouse droppings were observed in and on bag of flour in the kitchen.
- P. **STORING MAINTENANCE TOOLS:** Maintenance tools and a step ladder are improperly being stored on and next to two food storage shelves that have single-service items on it.
- Q. **TOXIC SUBSTANCES – IDENTIFYING INFORMATION, PROMINENCE – COMMON NAME – WORKING CONTAINER:** Working containers of de-greaser are not labeled with contents.
- R. **TOXIC SUBSTANCES – STORAGE:** Can of insulating foam sealant in food prep area is stored touching container of single-use gloves and above the freezer; and the premises did not have a valid food dealer license because it had expired 3 days prior.
- S. Alderwoman Coggs asked why the applicant did not apply for a change of ownership when he took over in July. She stated that the health reports are

horrible and they're putting people's lives and safety at risk because of the bad food management. She added that she has heard nothing from the applicant about a plan to change this and as recently as 4 days ago there were still violations. Ald. Cogs additionally observed that the violations referenced in Findings F –R above occurred while the business was unlawfully operating with no license. She stated that based on the volume and danger represented by the violations, she could not conscientiously support a renewal.

- T. Alderman Kovac stated the premises were operating in a dangerous way, and they did not have a license and knew they did not have a license.
- U. Alderwoman Cogs moved denial based on Health Department reports, operating without a license, and applicant testimony. (Prevailed 5-0)
