TO: City Clerk

.ATTN: CLAIMS
WI, Milwaukee 200E Wells St.

CITY OF MILWAUKEE
2023 MAY 19 PM 3:54
CITY CLERK'S OFFICE

The event happened in March. A tree fell on a new fence at my home where I reside, damaging the posts and also the retaining wall, and also the decorative compressed in front of it.

I contacted Milwaukee fence company, new fence reparation, and numerous companies to get the estimate. And three companies went to the place with a verbal estimate of 6, thousand to 8 thousand but they don't want to do it because the materials that they have is different and it will be too difficult to match the other existing fence and retaining wall. Milwaukee Fence told me they can do it but if I want the same, they have to Reduit all the fences around the house and the cost will be ten times more.

After trying to get some company to do it without results. I decided to do it myself because the permit will expire, and I want to be done with that situation.

- Because the fence is cast in the slab cap with concrete to replace the need to demolish
- The broken post has poured into the footing of the retaining wall to install and needs to be demolished and poured the footing again.
- Install solar light fixtures.
- Install the lads keeping light into the cap slab.
- Precast concrete 2,500 to 3,000 (psi) mixed with match fiber. footing
- Precast concrete 2,500 to 3,000 (psi) mixed with match fiber, for the cap wall fence
- Install the decorative break out of the blocks
- Install three lines of retaining blocks
