**Subject:**

To whom it may concern,

I wanted to very quickly and shortly say something about this issue. I am a concerned worker in this industrial park that is very grateful for his job and grateful for his job in a safe working area. This is a place in Milwaukee where business can flourish if the city will allow it to. I oppose any residential housing here or apartments that will effect the working environment. Please let the people in Milwaukee keep their jobs.

thanks,

Benjamin Seipel
