Subject: NO to the Data Center at Midtown

Some people who received this message don't often get email from amandamswan12@gmail.com.
[Learn why this is important](#)

To the City Plan Commission:

The city of Milwaukee and its people do not need or want a data center built at Midtown, or anywhere within this city. We need affordable housing, community services, revitalization and economic development that creates real and sustainable improvements to the quality of life for those residents and areas that need it most, including Midtown, notably a majority minority moderate-income census tract where almost 24% of the population lives below the poverty line. The community is stressed as is, and anybody that thinks a data center is the solution, does not care about the people of this city. Please prove that's not the case and say no to this proposal. The future of this city and the well-being of ALL of its residents depends on it.

Amanda Swan
Milwaukee Resident, 53212
