On June 21, 2006, Robert Mentzel from Ravenswood Auto Center called me about 5 damaged vehicles on his lot. He told me they were just stone chipped by equipment some city workers were using. I told him I would come over to look at the damage. When I inspected the cars they had not been moved and still parked on the lot where the damage occurred. I only wrote estimates for repairs of fresh damage, not for any of the pre-existing ones. On all of the vehicles little pebbles and gravel were still visible, I could clearly see this was fresh damage.

Thank you,
