

V3 Series double-hung windows with Coastal Watch Protection

## Designed and tested for 24/7 peace of mind.

Whether you live on or near the coast, Silver Line® windows and patio doors with Coastal Watch Protection give you peace of mind.\*

Our products are designed and tested to stand up to extreme coastal weather, giving you 24/7 protection without the need to buy, install, remove and store separate plywood panels or shutters. And, since Silver Line is an Andersen company — the leader in the industry — you know you're getting dependable products designed with the highest attention to detail.\*\*

## DESIGNED AND BUILT FOR THE COAST

Our windows and patio doors with optional Coastal Watch Protection are designed to stand up to extreme wind, rain and wind-borne debris — perfect for your coastal home. Here's what you get when you choose Coastal Watch Protection\*:

- Impact-resistant glass for protection from wind-borne debris and damaging wind
- Structural reinforcements for added strength to withstand extreme weather conditions
- Tested and certified to nationally recognized standards for strength and durability
- 24/7 protection without the inconvenience of plywood panels or shutters
- Our Limited Lifetime Warranty\*\* for further peace of mind

### CERTIFIED TO MEET:

- Florida Building Code Product Approval
- High Velocity Hurricane Zone (HVHZ) approval
- AAMA/WDMA/CSA 101/I.S.2/A44-08
- National Fenestration Rating Council® (NFRC)
- ENERGY STAR® certified with select glass options
- IECC and Florida energy code

Impact-resistant insulated glass is reinforced with a clear PVB plastic layer to resist impact. The insulating air space helps keep homes cool in the summer and warm in the winter.

## The Benefits of Impact-Resistant Glass

### STORM PROTECTION

Helps protect your home against extreme weather and flying debris.

### SAVES ENERGY

Helps shield homes from the sun's heat, helping keep your home cool and lowering energy cost.

### SAFETY

Provides forced-entry resistance for peace of mind.

### SOUND REDUCTION

Reduces exterior noise for a quieter home.

### SUN PROTECTION

Helps block damaging UV rays from coming into your home.

# A range of choices for a variety of homes.

# Window & patio door types.

There are many different types of windows that differ not only in appearance, but also in how they function. Depending on your home's style or your needs, you may wish to choose more than one type of window for your home.

## Double-Hung Windows

A double-hung window has two vertically sliding sash in a single frame. Double-hungs lift open while remaining flush with the wall, making them ideal around patios, decks and walkways.

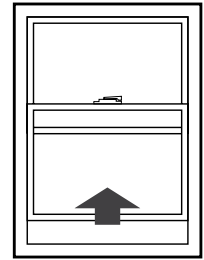

**See page 6.**

## Single-Hung Windows

This window looks like a double-hung, but only the bottom sash moves up and down.

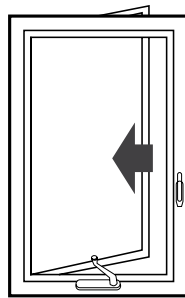

**See page 9.**

## Casement Windows

Casement windows are hinged windows that, with a turn of a crank, open outward to the right or to the left. Casements are common above kitchen sinks and offer great flexibility for grouping with other windows in stunning combinations.

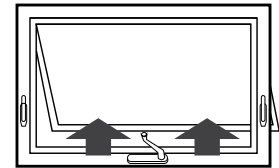

**See page 7.**

## Awning Windows

Awning windows are hinged at the top and open outward. They catch breezes from the left or the right and are often used above, below or alongside stationary (non-opening) windows.

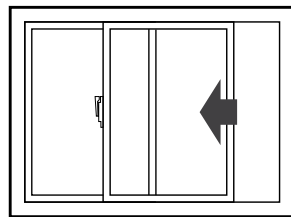

**See page 7.**

## Gliding Windows

Gliding windows feature two sash, with at least one of the sash sliding horizontally past the other. They give you the advantages of double-hung windows with a more contemporary look.

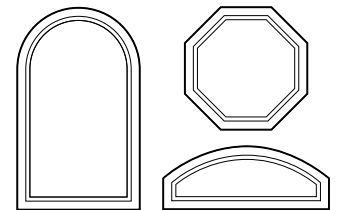

**See page 8.**

## Specialty Windows

Specialty windows are stationary windows characterized by their shapes, including curves and angles. They can make a signature statement in your home as well as provide a delicate lighting accent.

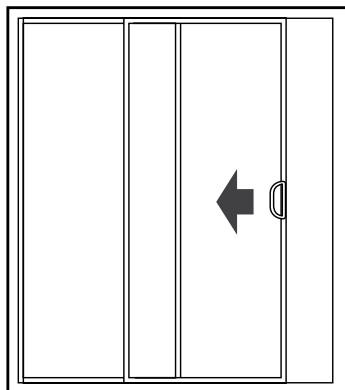

**See page 8.**

## Gliding Patio Doors

Gliding patio doors have one door panel that glides smoothly past another door panel, so they save room both inside and out.

**See page 10.**

# DOUBLE-HUNG WINDOWS

V3 Series double-hung windows with Coastal Watch Protection

## V3 SERIES

### Double-Hung Windows

- Colonial brick mould design for classic styling
- Tilt-in top and bottom sash
- Lock automatically engages when window is fully closed

### Patio Door Handle

A color-coordinated handle set with a key is included. Or choose an optional Satin Nickel handle set with a key and locking lever.

## Impact-Resistant Glass

Silver Line® windows and patio doors are available with a variety of energy-efficient, impact-resistant glass options. This not only helps you to achieve the comfort and energy efficiency you're looking for, but also makes it possible to get windows and patio doors that are ENERGY STAR® v. 6.0 certified, all along the coast.

### Low-E Glass

Low-E glass reflects heat in the summer and helps keep heat inside in the winter, making this a good choice in climates where both heating and cooling costs are a concern.

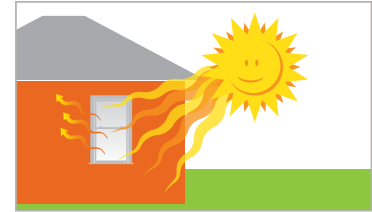

**Great for most climates**

### SmartSun™ Glass

SmartSun™ glass gives you the benefits of Low-E glass, plus it helps shield your home from the sun's heat and filters out 95% of harmful UV rays while letting sunlight shine through.

**Maximum UV protection**

### Sun Glass

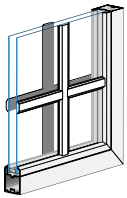

Sun glass offers outstanding thermal performance with a subtle tint that blocks out even more heat from the sun.

**Filters harsh sunlight**

## Grilles

### Simulated Divided Light

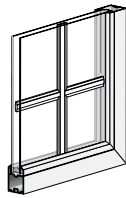

Provides the traditional look of individual glass panes.

## Respect for the environment is nothing new at Silver Line.

At Silver Line, we hold a commitment to conserve natural resources wherever we can, from designing and testing new products that will deliver greater energy savings for our customers to more energy-efficient delivery methods — even to printing our brochures. We understand the importance of creating healthier and more energy-efficient homes.

ENERGY STAR® is a joint program of the U.S. Environmental Protection Agency (EPA) and the U.S. Department of Energy (DOE) that helps consumers save

money and protect the environment through energy-efficient products and practices. Silver Line is proud to be an ENERGY STAR partner with our continuing commitment to providing energy-efficient products.

Silver Line vinyl windows and patio doors have been Home Innovation NGBS Green Certified for both Energy Efficiency and Resource Efficiency. Silver Line achieved these approvals by providing independent third-party results that our vinyl windows and doors perform to the green practice criteria in the National Green Building Standard. As a result, these products are eligible for points toward National Green Building Certification.

Silver Line products are certified under the National Fenestration Rating Council's voluntary third-party certification program, which is designed to ensure accurate energy performance ratings and labeling.

Silver Line proudly participates in the WDMA Hallmark Certification program, which includes product testing and quality control process audits to verify that our windows and doors are produced in conformance with the industry standards for air and water resistance, and structural performance.
