- Real Estate Investing
 - I started and have developed a Real Estate investment business with both Commercial and Residential properties

3/26/17

Uptown Crossing -- BID 16
Gordon Steimle, BID President
Re: BID 16 Board

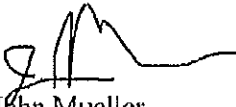

Gordon,

I would like to thank you and the board for nominating me as a potential candidate to join BID Board 16. I have been periodically attending board meetings for the last 5 years and have become more involved with my attendance at the last 3 monthly meetings. I have great interest in the board because I own several buildings within the BID 16 area and I reside in neighboring Washington Heights.

Over the last several years I have been involved in developing a series of properties that were previously abandoned or foreclosed. My business strategy has been focused on redevelopment in our historic area, and we have started to see a transformation on the blocks where we invest. I have also come to recognize the importance of organizations like the BID that help facilitate business growth in the area.

I hope to bring a unique perspective to the BID board as an investor that is very concerned about the improvement and beautification of the district. I look forward to working with you and the other board members to this end.

Sincerely,

John Mueller
