Subject: Objection to midtown data center

Some people who received this message don't often get email from kate.mcchrystal@gmail.com. [Learn why this is important](#)

As a homeowner in Wauwatosa and Milwaukee, I strongly object to the development of a data center in our community. We know that data centers disproportionately use resources while providing little to no community value - they select areas where property values and thus property taxes are low, do not provide employment opportunities and contribute to sound pollution.

This is not economic development. This is taking advantage of cheap real estate with a detriment to the community.

No data centers in our community!

Kate McChrystal
