Dear Ms. Bigalke:

On May 31, 2005, the Utilities & License Committee voted to recommend the granting of your licensed dwelling facility (rooming house) renewal application for 3217 W. Wells St. with a warning letter. At Tuesday's Common Council meeting, the Common Council approved the Committee's recommendation.

This course of action was taken based upon testimony given at your hearing of May 31, 2005. The Committee heard testimony related to individuals yelling the names of residents or previous residents of your establishment to get their attention, loud music and noise emanating from the premises, individuals loitering on and around the premises and garbage and litter nuisances on the premises. This warning is being given with the expectation that you will take appropriate action to ensure that incidents of this nature do not reoccur.

Sincerely,

Ald. James Witkowiak, Chair
Utilities and Licenses Committee
