Greetings.

The data center will be a waste of our resources. The Midtown neighborhood is already not treated as well as others in this city. Data centers have proven to be a waste of our water and do not lead to jobs. This will hurt the residents of the neighborhood and the city in general.

Milwaukee as a city needs real work and care. Our roads are atrocious. Start with the roads.

Vote no for a useless data center. AI is not our future. The people are.

Best.
