E M P L O Y M E N T

Director Administrative and Technical Services

The Rivianna Group

June 2006 – Present

Rivianna is a 100 million dollar, mixed-use condominium and hotel project along the Milwaukee River. The developer resides in Portland and comes to Milwaukee once a month.

- Local representative of developer to architects, politicians, realtors, and engineers.
- Wrote project narrative for Milwaukee's Department of City Development.
- Data gathering and analysis of realtors' forecasting of trends in condominium amenities and design.
- Research history of existing property to determine quantity of river pilings.
- Research of neighboring properties to determine possible availability and ownership.
- Community liaison between Rivianna, Walker's Point neighbors and the Fifth Ward Neighborhood Association.
- Daily internet monitoring of any writings on project.
- Liaison with artists involved in the project.

Executive Director Institutional Technology

Milwaukee Institute of Art & Design

August 1997 – October 2005

Responsible for planning, design and integration of electronic technology for faculty, staff, fulltime students, and continuing education students totaling 2,500 end users for a yearly budget of over one million dollars. Growth of computers rose 267% from 1997 to 2000. Quantity of computer labs increased 467%, from 1997 to 2005. Working with the Institutional Technology team, installed switched fast Ethernet, gigabit backbone for academic labs and fast Ethernet backbone for administration across five building and over 300,000 square feet.

- Develop, plan, and implement Five Year Technology Plan with department Deans, faculty, staff, students and Institutional Technology group.
- Write Technology Policy and Procedures for students, faculty and staff.
- Centralize all technology budgeting and purchases across disparate academic and administrative divisions. Work with Deans and faculty, to project and prioritize department technology requests. Combine all academic department budgets with administrative and Institutional Technology requests for complete yearly Technology Budget. Annual budget review and analysis with Provost, CFO and President.
- Coordinate technology refresh program for computer labs, faculty and administrative staff computers. All computers leased and replaced every three years. Summer classes allowed only a two week period to box and return old computers *and* setup new replacement computers in multiple computer labs.
- Initiate, coordinate and process 5 master leases with over 30 schedules worth three million dollars that provided a massive influx of technology very quickly.
- Oversee campus transition from traditional telephone switch to Voice Over Internet Protocol (VOIP). Reduce monthly telephone bills from \$6,000 to \$1,800 for an annual savings of over \$50,000. Majority of departments and all dorm rooms receive new phone numbers.
- Serve on Administrative Academic Council; President's Council; Planning, Governance, and Evaluation Committee; Facilities Committee; Printing Committee (*Chair*); and Institutional Technology Committee (*Coordinator*).
- Administer \$50,000 National Science Foundation Grant for two years.
- MIAD Representative on the Wisconsin Association of Independent Colleges and Universities (WAICU) IT Directors subcommittee for seven years.
