Subject: Data Center

[Some people who received this message don't often get email from svela2505@gmail.com. Learn why this is important at <https://aka.ms/LearnAboutSenderIdentification>]

Hello,

As a lifelong resident of the city of Milwaukee, I am adamantly against the building of the data center. ESPECIALLY at the planned location.

Why are we allowing these companies to infiltrate our community.. only to enrich the already wealthy? Continue to spread harm ?The city has failed the residents of this community for decades. A data center should be the last thing entertained by the people who make decisions on what our inner city needs or wants. Why don't we hold a referendum on what the CITIZENS need? What is going to help/uplift/rebuild and heal?

Thank you,
Sofia Vela Hayes
