Subject: NO Data Center

Some people who received this message don't often get email from sengelhart81@yahoo.com. [Learn why this is important](#)

To whom it may concern,

I implore you to do what is right for this city and our environment. These data centers will have huge consequences to our health, our water, our wildlife, pets, resale value of our homes, and our community. Wisconsin is the dairy state not the data state. We cannot afford, on any level, what this will cost us.

Milwaukee residents are just starting to get the lead removed from our water pipes, we don't need another contaminate to deal with.

It is a disgrace to use a lower income area, where you assume there will be less pushback.

There have been pockets getting lined in back room deals and NDA's to limit public awareness and transparency.

Do the right thing and reject this deal. You live in the city too. When will it be your backyard; it's only a matter of time if you don't fight this.
