Existing Conditions in Back Yard

Looking east to existing neighbor's fence. To be replaced by the fence in the image above, labeled "6'-0" Tall Privacy Fence"

Existing Conditions in Back Yard

From back driveway looking north. No changes to this view

Existing Conditions in Back Yard

Back driveway looking south. Obscured from street by house and garage. Privacy fence will be installed as the image "6'-0" Tall Privacy Fence"

Existing Conditions in Back Yard

Substantially similar view as above. Looking southeast from back driveway. Again, cannot be viewed from the street.

Existing Conditions in Back Yard

View from back porch of house, looking southeast. This is where the “3’-6” Tall Mesh Fence” will be installed, to protect historic borrowed view. This border cannot be seen from the street

Approval Letter from the Frank Lloyd Wright Building Conservancy

Subject: Proposed landscape modifications Frank Lloyd Wright's Bogk House 2420 N. Terrace Ave

Dear Doreen and Dan,

Thank you for sharing your plans for landscape modifications at the rear of the Bogk House, on which the Frank Lloyd Wright Building Conservancy holds a preservation easement. These plans have been reviewed by the architects of our Legal/Easement committee, and no exception is taken to the proposal.

The committee commented that the proposed plan is practical, has the almost requisite geometric allusions with the hardscaping, but all is done in a casual and quiet manner.

Let me know if you have any questions.

Best,
John
