CITY CLERK

This is Marie Sanders, I received a letter on Nov 12, 2001 about my Car claim. A 1982 Chrysler, the statements in the letter is not true, their wrong, very wrong. For one reason, it was said they sent out a letter to 520 W Northave apartment # on March 29, 2001. That the Car, was a abandon Car, I did not live at this address anymore. And also they had my correct address, this letter does not sound right, to me at all. They have all my current information, so matter what letter they sent, I file my claim. Right afterword's, secondly their very wrong, when it was said that my Car was abandon, that is so very not true. My Car was not abandon, and this is very not fair and its wrong to take my Car. I went to Court making arrangements to pay off my parking tickets and I started paying on them, my Car was very reliable, dependable, it was a very good running Car, it always work through summer, fall and winter. They took my Car for nothing, I was paying on my tickets and they still took my Car. On their Computer it even said I was paying and I went to Court for it. That is totally unjustic and it was wrong, that is not my fault, that's their mistake. After this happen I went back to Court again, they seen everything was correct what I said and I still was mistreated and talked too anykind of way, you dont do people like that, I was disrespected. That hold day back and fourth, and like I said I was already going through family problems and plus deaftz in my family. So you can image how someone would feel, if you truly understand. The law did not work for me about my Car, that is so unfair. And a nothing thing that was truly unceptable was, they told me to pay \$380.00 plus other tickets to get my Car out.

it was not my fault, in the first place, I didn't have ~~had~~ the money to get my vehicle out of the pond. That they took, for no reason, why would I make arrangements to pay off my tickets? I liked my car, I wanted my car, but I didn't have the money. Then on top of that, the judge said borrow the money from someone else. You don't tell people, nothing like that and you a judge. How do you know if people have money to let someone else, borrow it? That was very wrong of him, to say that, to me. And I ask him to give me a piece of paper, saying to release my vehicle. And he didn't. You see now, all of this could have been avoided, with one little piece of paper. I couldn't just go and get my car I had no money. And this shouldn't have never happen in the first place.

All he had to do is give me a letter so I can get my car. I was treated like dirt, that day and that's something you never forget. I already suffer from stress and depression a lot, it was totally unfair to me, they took something away they shouldn't have, this matter, should be taken seriously and carefully read and understandable. Put yourself in my shoes and see how I feel, I went through hell that day. It was like a nightmare, remember they took, destroyed my vehicle for nothing. It was very wrong, and unfair and not justic, us as a people, we need people to help us too, when we are right, how can it be law and order. If people not gonna look or help us when we are in the time of need for justic and want what's right. You ^{know} what is right and what's wrong. And it is very wrong to deny a claim like mine. I strongly disagree with the decision, how can you deny

someone when they is so right? I just dont understand
 this one at all. And I've been though enough, this matter
 needs some law and order in it. This is not right, its
 far from right. I dont think this is taken seriously, it
 seem's like no one cared, enough to take out the time
 to really look. At my saying's and what was done
 to me, as a person, I know you alot of Case's to
 look at. And I know alot of the times, your job can
 be stress or you can be just having a bad day.
 But please, look at Case and understand it, please consider my
 claim and dont overlook my case. And if you have any questions,
 please feel free, to call at anytime. I had the ~~man~~ runaround
 all day when I went to court for this matter, its a hell of
 lot about this matter. And it really needs to be looked at
 and be consider, everything, not just one part or the parts, that
 you only want to see. Because, if I was wrong, I never would
 of file a claim, and it shouldn't & never came down, to this
 it was their mistake. Not mine, all the judge had to do is
 give me ~~and~~ one little piece of paper. And he fail to do that,
 took my transportation, good transportation, at that. I need justice
 in my claim, I need some truth in my claim and some law
 and the right thing and whats really fair on the judge behalf.
 And on my behalf what is fair, because it wasn't fair on
 his behalf, at all, I want whats right. This faulty decision, should
 be overtured and reviewed, this is also on my credit report. This is gonna mess
 up my driving license as well and thats very unfair. I truly believed
 I am right in this and anybody can see that I am, with common
 sense. And a person who work for the law and know what justice
 true is understands, this matter. I am also going thought alot of emotional
 problems as well, please consider, everything I told you. Thank you and please
 and everything I have said stands, that's why (414) 444-4629 Consider
 I strongly disagree, with this decision, very deeply. you can call at anytime

I Marie Sanders, feel that this claim, should be looked at. Carefully, and give serious consideration, to this matter, My vehicle was getting parking tickets, it seems like to me, constantly, on purpose. It was always, mostly the same officer, so I bought a parking permit. And I also, went to court, to make arrangements, to pay on these tickets. Now, I suppose to be in computer, that I went to court and made arrangements. So I was, still getting tickets in the mail, I called and told them. I was paying on the tickets, but they was still sending them out, to me. So I went back to court again, I talked with the judge and explain to him. About my case, I told him these are the tickets that I was coming to court for. He told me to go upstairs to fine out, so me and him got into it. Over these tickets, I was very angry and upset, he was very unprofessional he didn't give it any thought on my case and on top. Of that my vehicle was tow away because of the tickets. I made arrangements on to pay. So I was right they was the same tickets I am coming to court for. I went back down and told him, so me and him was still into it I told him, who told and who I spoke with. So he send me back, upstairs to get some paper's and bring them down and show them to him. There was a fee for my car of \$380, he told that I can pay and get it out, and that was just totally wrong. I don't have that type of money and then on top of that it was they mistake. And I told him I didn't have money to get my car, I had a good dependable reliable car, that car never let me down, it was old but in very good condition.

I truly and strongly feel, that this matter be really considered because I had hell with the judge, they took my car I was paying tickets on, I was going through stress, depression. Because of two family deaths at the time and the judge was not fair. And also this messes up my credit its on my records and its not fair and not right. Because this is only really half of the story I had to go back and fourth up and down the stair's. All that day I was there many times. I talked and really tried to reason with him and it was not my wrong doing at all. All was he to do is give me a letter for I can get my Car back, even other people said that, people that worked down there, told me that. which I knew anyway and this all could of been avoided. I am asking for these ~~costs~~ tickets to be wipe out and I am asking for \$1,000, because of everything that happen and took place, the lost of my car, The hell I had with the Judge, with other people disrespecting me. About my information, all the running back and fourth, all the unnecessary phone calls I had to make, the crying with other people. The Emotional stress and crying, The very long period of being in a courthouse, have to wait and get the run around all day. No one showed justice or consideration of this matter, its very hard trying to do the right thing, when people act like, your nothing and thats how I felt on 4-10-01. And people should not make other people feel hurt or make them feel low like there just a piece of shit. And society wonder's why people kill, blow up buildings, do things the way, they do. This is a big world and its so unfair. I want to purchase me another car, if you have any questions please call anytime. please consider my request.

The bottom line I was treated unfair and all of this could have been avoided if they would have really take the time to check out everything they self. I lost my car, my transportation. I suffer emotional stress over this. I needed help didn't no one care. I went to Court for this and over this I was there mostly all day. With this matter They took my car for no reason it was their mistake not mind that was wrong the law in this case was miss use, very miss use. I was disrespected, I got the run around all day over this. This should be taken seriously I lost relatives at the time I was already going through aruff problems please consider everything that took place I still today keep receiving tickets for this and I can afford there unnecessary tickets I had the run around on phone conversation's too when I was calling.
