We are installing a fence on the South Side of the home.

The fence will serve two purposes. First, it will provide some privacy for the back yard.

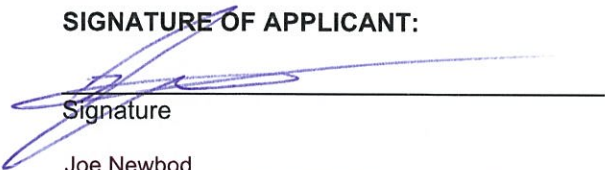

Second, it will protect a boxwood hedge that will be planted on the south side of the property from damage from snow plowed off the neighbor's driveway. See the attached sketch for the path of the fence and related landscaping.

The fence will comply with historical requirements in that it will only be four feet tall. It will be black in color and it will look like the fence in the attached sketch from the manufacturer. The bottom of the fence will be several inches off the ground as the posts in the attached sketch will be mostly buried underground.

If you have any questions, please do not hesitate to contact me.
