Subject: Please protect Milwaukee from imposition of a "Data Center"
Date: Thursday, May 14, 2026 9:11:50 PM

Some people who received this message don't often get email from jill.madigan@sbcglobal.net. [Learn why this is important](#)

Please protect us from the invasion of a 'Tech Center' anywhere in Milwaukee County. The unwelcome pollution and other environmental dangers provided to other locations are certainly matched by thy added cost and demands to all residents on our already costly water and electrical(, etc.) power supply makes this completely unreasonable. As an Electrical Engineer (BSEET, MSOE '97) I am fully-aware of the risks involved and oppose the imposition of this impractical and ill-advised assault on me and my fellow citizens, community members, and neighbors.

Even if the well-funded proponents were to supply and pay for its true cost themselves, the dangers - noted in other locations - to our health and lives do not justify this atrocity and waste of resources anywhere in the US. Please protect us!
