Market Overview

What is my Vehicle Market Value based on?

531515392, New Berlin Wisconsin--Research for your vehicle was based on market analysis originating from your zip code.

Fair and accurate market valuations must balance geographic location with comparability of one vehicle to others. Having the largest and most current database of vehicles for sale provides a comprehensive view of your vehicle's market. In addition to the vehicle inventories received directly from dealerships, Autosource finds comparable vehicle information for vehicles in the same places most buyers look for them--local and national internet websites, vehicle guides, publications and partnerships representing more than 10,000 independent vehicle sources.

How did Autosource make adjustments for my vehicle?

The main factors that affect the retail selling price and marketability of a vehicle are **mileage, equipment and condition**. Therefore, Autosource valuations include adjustments that fairly consider the differences between your vehicle and the typical vehicle found in the market.

- o **Mileage**
 - Adjustments are made to account for the odometer differences between the loss vehicle and comparable(s).
 - The mileage adjustment is based on 4.50 cents per mile specific to the 2012 Nissan Sentra 2.0S 4D Sedan in the state of Wisconsin. Mileage adjustments are capped at 40% of the vehicle's starting value.
- o **Equipment**
 - Adjustments are made to account for the differences in equipment between the loss vehicle and comparable(s).
 - Equipment adjustments are based on the manufacturer's retail price, adjusted for depreciation
- o **Condition**
 - Typical condition is based on hundreds of inspected vehicles
 - Condition adjustments are based on a percentage of the vehicle's value

Comparable Vehicle Details

The following information provides the details for the vehicles used to calculate the Autosource Value. The selling price may be substantially less than the asking price. Where indicated, the asking price has been adjusted to account for typical negotiation according to each comparables price.
