Subject: Downer Ave Support

Hello Bob, I want to show my support for the new plan for improving Downer Ave. There has been thoughtful design changes made based on input from numerous different sources. There will always be a group of vocal opponents for any change to the status quo. Leaders must look to the greater good and not short sited opponents.

I am not affiliated in any way with the developer, just want to enjoy a healthy Downer Ave.

PS--it's being developed without any public money
