Request for Hearing

I wish to appeal this decision and request a hearing.

At the time of my filing of the claim, I was on the process of moving and I listed my parents address. My address now is 231 W Wisconsin Ave. Apt 1213, Milwaukee 53202 and my phone number is 414 – 699-7230.

My father Edward Calvey is my personal representative in this matter. His address is 223 N Pinecrest St, Milwaukee, WI 53208. His phone number is 414-258-5074.

While my father and I are not familiar with the hearing process, we hope to find out what the City of Milwaukee can tell us with respect to the letter that I received. The letter was dated January 9, 2008 but was not received until January 26, 2008 because I had moved. The letter indicated the City was not liable for the open manhole cover because the manhole in question is **for** the Metropolitan Intercepting Sewer.

We hope at the hearing to be offered proof that the Milwaukee Metropolitan Sewerage District owns the manhole. This would include documentary evidence which I am sure was available to the Infrastructure Services Division when it made its conclusion as to ownership.

We hope at the hearing to be offered proof in writing that the City of Milwaukee Infrastructure Services Division never would open any manhole owned by the Milwaukee Metropolitan Sewerage District. Proof could be in the form of written policies as to opening manhole covers or some other explanation of protocol.

Can the City of Milwaukee Infrastructure Services Division give us any information as to the work being done on August 7<sup>th</sup>, 2007 as to that particular manhole? Can the City of Milwaukee provide a legal description of that particular manhole cover? We will need that information to move forward with a claim against the Milwaukee Metropolitan Sewerage District.

Does the City of Milwaukee Infrastructure Services Division know who would have been working on that particular manhole at that time – be it the Sewerage District or private contractors on their behalf?

How do I contact the Milwaukee Metropolitan Sewerage District? I am sure the City works closely with the District.

As part of my discovery I wish to point out that the day after my jeep ran over the manhole at the intersection of 8<sup>th</sup> and Michigan, I inspected the area and noted another manhole open with work being done by a contractor on behalf of Time Warner Cable. That open manhole was about seven feet away from the manhole that I had my accident with. Each of these manholes was directly in line with each other. The manhole I went over and this manhole both said on them City of Milwaukee – Communications.

Thank you for your consideration.

Sincerely  
  
Timothy Calvey

#### Description of incident

At approximately 12:40 am (a Tuesday) the morning of the 7<sup>th</sup> of August, 2007, I was returning home from work. I was driving west bound on Michigan ave. when I felt two huge bumps in the road. I lost control of my vehicle slamming into a curb as well as running over some barricades. I parked my car to see what it was that my car ran over. I walked over to where the incident occurred to discover a manhole missing from the street. I moved a barrel in front of the hole so no one else would run over it. I called the police to report the incident and request that a squad show up so I would have proof that the incident occurred. After being transferred from department to department I finally spoke with an individual who took my name and information. He told me that they would not be sending a squad but gave me a phone number to call the following day to file a claim. I was disappointed at this answer. I told him the exposed manhole at the intersection of 8<sup>th</sup> & Michigan was a danger to others. I noted that the manhole cover was sitting on the side walk. I indicated it was dark in that location and the raining made visibility quite difficult for other drivers and it should be looked into.

The following day I drove back to the location of the incident and discovered cameras on the building next to where the incident occurred. I was able to have a discussion with David Nevaranta who is the principal of Project Stay Eight Street School at 609 North Eight Street in Milwaukee. He indicated to me there were surveillance cameras that might be able to show the incident. Subsequently he contacted me and was able to show me the incident from video footage from the cameras. The video showed my vehicle driving west bound and it also showed the manhole cover popping out of the hole as I drove over it. After the 2<sup>nd</sup> tire went over the manhole cover spun off like a disc and ended up on the side walk. I wish to point out that the day after the accident I drove in the area and saw that work was being done with man hole covers open.

Two days after the incident, I woke up with a pain in my neck that stretched down my back below my shoulder. I had very little range of motion. I could not nod my head. I had to position my upper body if I wanted to look to either side. I saw a chiropractor at Mueller-Nelson Chiropractic Offices on West Greenfield Avenue in West Allis to get some range of motion back but still am experiencing some pain.

I had waited to file this claim because Mr Navaranta had indicated he would provide me with a DVD copy so that I could show it to the City of Milwaukee officials responsible for reviewing my claim. Unfortunately, Mr Navaranta indicated in a letter to me dated September 10, 2007 that he had inadvertently erased the video footage when attempting to produce the copy. I am providing this letter to you today. He does describe what he saw on the tape and it is consistent with what I saw when viewing the tape with him.

I am filing a claim because I believe the City of Milwaukee or contractors for the City were negligent in not replacing the manhole properly causing the accident. My claim is for the estimated amount of repairs to my damaged jeep as well as the cost of the chiropractor.

I am providing the following attachments:

Letter from David N Nevaranta, Principal of Project Stay Eight Street School  
His phone number is 414-298-9300

Two estimates for damages done to the frame

Starr Wheel Aligning	454.32
Eward Mayfair	521.00

Two estimates for other under body damages that occurred

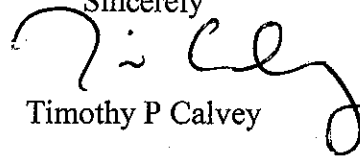

R&R Auto Service	2,383.85
Pro Tech Automotive	2,314.23

Chiropractor bill that I received

Mueller-Nelson Chiropractic Offices	105.00
Phone number is 414-258-9777	

At this time I have not discussed this matter with an attorney. I would have to do so absent the payment by the City of the claim. Your prompt consideration would be most appreciated as I cannot use the vehicle in its present condition.

Sincerely

To Whom It May Concern:

During the week of August 13, 2007 I was contacted by Tim Calvey who explained that his vehicle had sustained major damage while driving through the intersection of Eighth Street and Michigan Avenue early on the morning of August 7, 2007. He had asked me if I would be willing to check if our school's video surveillance cameras had recorded the event.

Upon review of the digital recording from the morning of August 7, 2007 I was able to ascertain that two security cameras on the south side of our building had captured images of Mr. Calvey's vehicle as it crossed the intersection at 8<sup>th</sup> and Michigan. I contacted Mr. Calvey and reviewed the video footage with him. The video showed Mr. Calvey's vehicle pass through the intersection at 12:43 a.m. on the morning of August 7, 2007. It also clearly showed the manhole cover in the intersection flipping up and rolling onto the sidewalk just east of the SE school entrance. Shortly thereafter it showed Mr. Calvey walking to the intersection from the west. He was seen examining the intersection, which was now missing a manhole cover, which was now lying on the sidewalk. He is then seen speaking on a cell phone while standing by the SE entrance of Eighth Street School. He then left the area shortly after 1:00 a.m. that morning.

I had intended to give Mr. Calvey a DVD copy of the video footage captured on August 7, 2007, but unfortunately it was inadvertently erased while attempting to produce a copy. Having viewed the footage numerous times, I have described what was captured by our surveillance cameras on that date. However, if you need any further clarification or have any questions please feel free to contact me.

Sincerely,

  
David N. Nevaranta, Principal
