for Carlen Natalia -

My neighbors and I are in bad need of a new garage door and opener. We would like to use Feis for our contractor. Tim Dreikasen came out to present this quote to us. He and his company has worked with Historic Preservation Commission many times. The exterior of the door will be wood. The series is Windbreaker 5400/5700 with the Stratton paneled windows. These windows best match the house windows. The trim is black iron. The door would be painted in shop and match the existing trim color on the house. Any questions please contact Jim @ 262.784.4250, or Teri Kolb (co-owner @ 964.0971.

Thank you.

Teri Kolb

5400 Series. Utilizes a steel base sandwich section with a polystyrene core.

5700 Series. Utilizes a polyurethane injected steel thermally-broken base section.

This series also available in **C.H.I. OVERHEAD DOORS WINDBREAKER SERIES**

Picture: 15 x 7' 5472 field stained with optional madison windows, seeded glass and wrought iron hardware.

FEATURES

The wide tongue-and-groove cedar boards and smooth cedar accent battens are laminated to the steel base sections with high performance adhesives. The door face is manufactured unfinished for field painting or staining.

Optional windows are available in plain glass, glue chip pattern or seeded glass, available in the top two sections of door

Faux windows are an option with the background color always being black and can be combined with all window section options

Series 5400 are 2" thick CFC free polystyrene insulated base sections

Series 5700 are 2" thick CFC free polyurethane insulated thermally-broken base sections

2-3/4" total section thickness

Wood-grained steel interior, pre-finished in white

One set of spade decorative hardware is standard for all doors. Optional Barcelona or Wrought Iron designs replicate an old-world look

Concealed steel plates run continuously from top to bottom of each section for fastening hardware

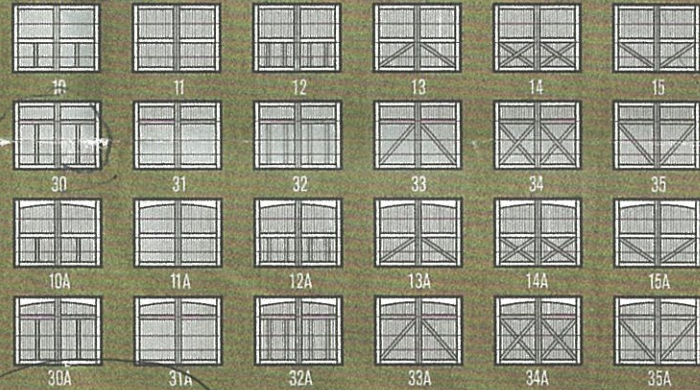

Series 5400 DASMA TDS-163 calculated R-value* - 9.06

Series 5700 DASMA TDS-163 calculated R-value* - 16.25

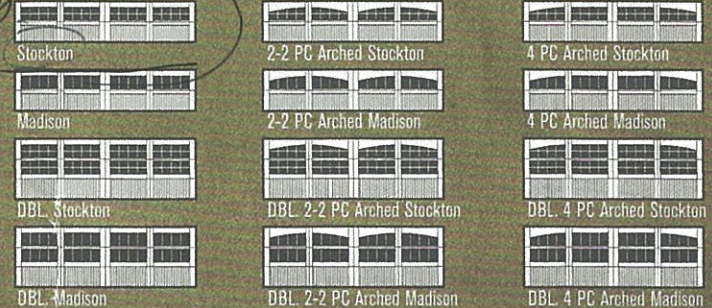

*Calculated door section R value is in accordance with DASMA TDS-163. This means that C.H.I. doors have met DASMA TDS-163 criteria for determining the effectiveness of insulation.

Note: Follow manufacturer's recommendations for surface preparation for field staining or painting applications.
