Appearing:

Melissa Allen, Maures Development Group, LLC

Ms. Allen gave an update. The project was many years in the making. Construction was underway. First units to be completed next week. There were 16 parcels in total, 17 buildings, an 30 total units. Units were market rate. Half of the buildings were new construction and half would be rehabilitated. Boundaries of the parcels go to West Teutonia south of Center Street, MLK Jr. Drive and Brown Street, North Avenue and Dr. William Finlayson Street. The bulk would be north of North Avenue. Total project was a \$9 million transaction that had increased to \$12 million. The delay in the project and increased costs were due to the COVID-19 pandemic and rising construction costs. Funding included LIHTC, ARPA, GMF grants, and other. There will be an open house on one property during Bronzeville Week.

Members inquired about the housing mix, leasing process, opportunity for creative work/live spaces, and use of revitalization grants.

Ms. Allen replied. The new construction buildings would consist of 14 side-by-side town homes and one new house. These units would have 2, 3, or 4 bedrooms. The rehabilitated properties would be a mix of 1, 2, 3, or 4 bedroom units. There would be 4 mixed-use commercial properties with residential on the upper floors. These properties included 540 W. North Ave., 1950 N. MLK Jr. Dr. (former Reader's Choice), and 1940 N. MLK Jr. Dr. (new construction over vacant lot). Rent would be market rate and range from \$860 to \$2000. Affordability was at 30% and 60% area medium income. Property management firm would be Team Management, the same firm currently used at their other developments (Griot and Historic Garfield Apartments). Team management was actively leasing, receiving many inquiries, and would be the contact for interested tenants. All units, including 2 apartments, were anticipated to be completed in mid-November. Marketing would start regarding the commercial spaces, and interested persons should contact her. There would be no artist component. Residential and commercial components were being treated differently. Units would be open to anyone. There were ample and better suited opportunities for creatives at their underutilized Historic Garfield apartments. She was aware of revitalization grants and would put a resource package together. She would be respectful to ensure that any new uses to come into the Bronzeville Overlay would align with the overlay.

Vice-chair Hill looked forward to seeing the commercial uses coming to North Ave. and said that the new commercial development would be the first one in the Bronzeville Overlay.

Chair Vernon advocated for opportunities for the creative community, would continue to dialogue further with Ms. Allen, and also looked forward to discuss the new commercial development when it becomes ready.

Coggs to schedule a greater meeting at Gallery 507 to address overall area concerns such as traffic, crime, and other greater issues. They were brainstorming on how to manage their overall campus and commercial spaces. The residential component would be closed at the end of August. TIF financing was being secured. They were also doing internal work related to legal and permitting. They were excited for their commercial anchors in Black Arts MKE, Wisconsin Conservatory of Music, and Beyond Stem.
