Incident Report 04/18/2013

Manhole Lid Incident

Time: 06:07a.m

Location: 3036 60th. St.

Near intersection of 60th St. and Burleigh St.

Weather Conditions: Dark, Cloudy, and Rain.

I was driving northbound on 60th St. heading to my job. As I'm driving I notice a manhole without a lid on it. I lightly apply the brakes and swerve left to avoid the uncovered manhole. During my actions trying to avoid the uncovered manhole, I see the manhole lid a short distance ahead lying in the middle of the street. The lid is now obstructing my way to get properly back to my lane. So I steer to avoid oncoming traffic, but I couldn't maneuver my vehicle enough to avoid the manhole cover. The front right, of my vehicle impacts the lid.

I proceed to pull over to the side of the street to look over the damage done to my vehicle by the manhole lid, and to look over the situation again. Upon checking my vehicle I notice that I have a flat tire, a severely damaged rim, the side skirt of the car had broken off, and some damage under the vehicle. I am not sure of the mechanical damage due to the incident.

There were no road signs to warn of the dangerous situation on the street. A city worker arrived a little time after to replace the lid on the manhole, and provided me the number and information to contact the city. A police officer also arrived to direct other drivers from the area. The officer also came to check on me, and asked for information about what had happened.
