Learn why this is important at <https://aka.ms/LearnAboutSenderIdentification>]

Dear all of whom this may concern,

The proposal of a data center in the middle of Sherman Park neighborhood further demonstrates an ongoing lack of commitment to the people of Milwaukee, our material needs, and our environmental conditions.

To build a data center in the middle of a neighborhood that is with a food apartheid, reducing bus routes, and minimal green spaces would cause catastrophic and irreparable harm. This proposal is intentionally out-of-touch with the needs and wants of taxpayers.

Why is there such a strong motivation to cause harm to our people and our planet?

Where is the backbone of our city officials?

The people of Milwaukee say NO to data centers. We do not want them in our city or our state. To even entertain an idea that would jeopardize the wellbeing our community in the immediate and the longterm is disgraceful and shameful.

NO DATA CENTERS IN MILWAUKEE.

Kaitlynn "KJ" Johnson
