CITY ATTORNEY

Re: CI. File No. 06-S-311
(Your Letter/Copy Attached)

Dear Mr. Langley;

Per your attached letter, I'd like to start by noting that the letter was authored on November 20, 2006, mailed on the 28th, with an appeal request due within 21 days of the authored letter. I have a concern that all this time had past with nothing addressed.

With that said; I would like to request a hearing and move forward, unless firm data is presented showing that the city was not in anyway involved in the road work at this intersection noted and beyond. It is difficult for me to comprehend that the city was not involved in any road work in the area, when and in fact the road work proceeded in all city street directions away from the intersection. I will need to confirm the location but again I am almost certain the area was that of 2nd and St. Paul Streets (NE corner of the old Hack Building? near Plankinton).

I did leave a message today for Mr. Carini asking that he contact me ASAP, regarding the same.

Regards,

Kevin Otto

Re: Claim for Damage to Vehicle

Date of Incident: September 15th, approximately 9:30 pm, damage to the under side of my vehicle.

Please be advised that I am submitting a claim for damage to my vehicle while passing thru and continuing east at St. Paul and 2nd street. Road construction was and continues taking place there. After the incident I surveyed the area, viewed extended and exposed sewer lids, severe dips and uneven road to travel on, severe and extreme unprotected, unmarked lips, etc....I do have supporting testimonials from other individuals if needed.

Please see the enclosed pictures for documentation; taken of the area on Saturday morning (Sept. 16th), note, crews were on site attempting to rectify the poorest of road conditions (please see comments on back of photos).

Additionally, the car could not be driven after the incident; I had to have the car towed to Braeger Chrysler on Saturday morning; there was no charge for the tow due to insurance coverage for such service. Initial inspection showed that the frame was crooked as well as pans fractured and leaking fluids; the tow driver informed me that he had recently towed a number of cars from that area; sighting same or similar damages.

Please note regarding repairs; I requested "used parts" to keep the cost down. Also note receipts for a "discounted rental car" for use during the repair period. Please note that this was a huge inconvenience as I was entertaining ATF folks from Washington DC, visiting that weekend.

If you need to speak to me, please call at the office; 414.276.4471. Thank you in advance for your quick attention and resolve of this matter..

Sincerely,

Kevin Otto,

Enforcement Technology Group Inc.
