Public Improvements Committee
Common Council
Room 205 City Hall
Milwaukee, Wisconsin

Dear Honorable Members:

Subject: Resolution File Number 020675
WE Energies (Wisconsin Electric Power Company)
Easement in Menomonee River Hills East Subdivision

I have forwarded to the City Attorney Common Council File Number 020675, which contains a request for easement granting WE Energies the right to install, maintain, and replace underground utility facilities on City-owned property at 6732 North Industrial Road. The facility will allow WE Energies to provide sufficient electrical power to the Sanitation/Forestry Headquarters building currently under construction.

I have reviewed the easement document with respect to content, and it is acceptable. I, therefore, recommend that subsequent to the City Attorney's favorable review and preparation of an appropriate resolution, the resolution granting this easement be adopted.

Sincerely,

VENU J. GUPTA, Director
Buildings and Fleet Services
