

2019 Quarterly RPP Report

QUARTER 2

DEPARTMENT OF PUBLIC WORKS

April 1 – June 30, 2019

CITY OF MILWAUKEE

SUMMARY

The Department of Public Works (DPW) closed 31 formal contracts from April 1 – June 30, 2019. In the second quarter of 2019, 100% of all closed contracts were compliant with Resident Preference Program (RPP) requirements.

Beginning in 2017, all contracts let with a RPP requirement also included a requirement that one quarter of all RPP hours be worked by residents of high-poverty zip codes as identified by the City Clerk's Office. The following zip codes are identified as high-poverty for this reporting period: 53204, 53205, 53206, 53208, 53210, 53212, 53215, 53218 and 53233. A new provision of this program allows each RPP hour from these zip codes in excess of the required amount to be counted as 1.5 hours. DPW closed 16 construction contracts in the second quarter that made use of the provision for high-poverty credit hours. In fact, all but two contracts closed in this period that were let in 2017 or later included credit hours for exceeding the required number of RPP hours from those living in high-poverty zip codes. This demonstrates that the contracting community is hiring from Milwaukee's high-poverty neighborhoods.

One of the contracts closed during this period were let without RPP requirements.

A detailed listing of all closed contracts from April – June, 2019 begins on the following page.

Demographic information for these 31 contracts begins on page 4.

HIGHLIGHTS OF QUARTER 2 RPP COMPLIANCE

- 31 contracts closed
- 100% of contracts closed during this period were compliant with RPP requirements
- 1 contract let without RPP requirements for elevator modernization requiring only highly-skilled elevator construction workers
- 1 contract let with a reduced RPP requirement of 10% for Bypass Pump and Lift Stations Inspections and Bypass Pump Wet Testing
- All contracts let with the standard 40% RPP participation requirement met or exceeded this requirement

CONCLUSION

DPW contracts meet—and often exceed—RPP requirements. All formal contracts closed by DPW during the second quarter of 2019 met RPP requirements. Nearly all closed construction contracts let after 2017 made use of the provision for RPP credit hours by employing RPP-certified workers from high-poverty areas beyond the requirement that 25% of all hours are worked by employees living in these zip codes (only C523180107 and C641180052 did not make use of the provision for high-poverty credit). Contractors are meeting new RPP requirements and are employing RPP participants from high-poverty zip codes to a greater degree than expected.

Overall, the rate of RPP compliance on DPW contracts closed from April 1 – June 30, 2019 is in line with previous reports of the department’s compliance with RPP requirements. The Department of Public Works expects this trend to continue as the department and the contractors who work with DPW most often are committed to the success of the Residents Preference Program.
