Subject: RE: Meeting Follow up

Good Afternoon President Murphy,

Community Advocates is always thankful when evidenced based programming to reduce and prevent poverty, violence, and other social harms and disparities are supported by public agencies and private donors. We believe the One Summer Plus program will emerge as an evidenced based program that will prevent and reduce youth violence in the City of Milwaukee. We're pleased that funds have been committed to the program. At this point in order to begin implementation and the first year pilot funding from the City of Milwaukee will not be required. Attached is an overview of the pilot program that was prepared for the State of Wisconsin Department of Children & Families. I am hopeful that you or your representative will be able to join us on August 14th for the site visit in Chicago. Please let me know if you have any questions about this program or any other Community Advocates programs and initiatives.

Best regards,
Andi Elliott
