

1. Describe the proposed ordinance or resolution. File number: _____

The proposed resolution aims to activate a grant from the Association of Public Health Laboratories (APHL). This grant supports development of a new clinical diagnostic test to be used at the Keenan Health Center, as well as for STI clinics that partner with the Milwaukee Health Department.

2. Identify the anticipated equity impacts, if any, of this proposal.

The diagnostic test developed as part of this grant will be used to provide better service to patients being seen at the Keenan Health Center and other clinics. Provision of better diagnostic testing to the patients at these clinics improves overall health of the community and has no anticipated impact on equity.

3. Identify which minority groups, if any, may be negatively or positively impacted by the proposal.

The clinical diagnostic test developed with these funds will have a positive impact on patients seen at the Keenan Health Center, which includes people who lack adequate access to healthcare. Historically, this has included BIPOC communities, people experiencing homelessness, and others.

4. Describe any engagement efforts with minority communities potentially impacted by the proposal.

Engagement with community members is outside the scope of this grant. Because of this, no community engagement efforts are anticipated.

5. Describe how any anticipated equity impacts of the proposal will be documented or evaluated.

N/A

6. Describe strategies that will be used, if any, to mitigate any anticipated equity impacts.

We do not anticipate any negative equity impacts that require mitigation.
