**Subject:** Letter in regards to HPC agenda item #200429: COA request for mural  
**Attachments:** Request to Defer COA\_229\_E\_Wisconsin.pdf; Managing Community Murals in an Urban Preservation Framework.pdf

Good afternoon Ms. Elmer,

It is my understanding that you are the correct person to submit public comment to regarding HPC agenda items in order for them to be part of the public record. I am also including additional, relevant board members and staff on this email. (Greetings to all).

Attached please find my letter to the commission recommending a deferral of the COA request for a mural installation at 229 E. Wisconsin Avenue. My submittal includes relevant research that I am attaching as a separate document for ease--but it is an official part of my submittal and should be included in the record as such.

Thank you very much and enjoy your weekend.

Best,  
Zachary Lifton  
M.S. Historic Preservation, Columbia University ('11)
