

1. Describe the proposed ordinance or resolution. File number: _____

Response Grant would allow the Communicable Disease Program of the Milwaukee Health Department to (1) partner with HIV/STI prevention providers and community-based organizations to provide mpox vaccination services and STI testing kits to at risk individuals.

2. Identify the anticipated equity impacts, if any, of this proposal.

3. Identify which minority groups, if any, may be negatively or positively impacted by the proposal.

Similar to what is being seen at the national level, racial and ethnic minority groups among men who have sex with men account for a disproportionate share of mpox cases in Milwaukee. This grant would allow targeted outreach efforts to these group to raise awareness of mpox and available mpox vaccination services.

4. Describe any engagement efforts with minority communities potentially impacted by the proposal.

5. Describe how any anticipated equity impacts of the proposal will be documented or evaluated.

MHD will (1) conduct an evaluation of the project's impact and effectiveness, (2) collect data on vaccination rates, clinic attendance, and demographic information to assess the success of the campaign and (3) analyze feedback from clients, partners, and participants to identify areas for improvement.

6. Describe strategies that will be used, if any, to mitigate any anticipated equity impacts.
