NOTICE FOR A REVOCATION HEARING

To Whom It May Concern:

I'm writing to you today about a problem with the loading zone at the Highland Café at 4110 W. Martin Drive, Milwaukee Wis . The problem I'd like to address is the owners of the café have a loading zone so that they can have there customers park there. A loading zone is for the loading and unloading of things. That being said the owners of the café call in people that live in the neighborhood when they park there car in front the café. When the customers park in front of the building park in front of the café they don't get tickets. You cannot have a loading zone but then only use it for your customers to park there and not anyone else. A loading zone is a loading zone not a customer's park only zone. There is a huge problem of parking in my neighborhood. I and people in my neighborhood have walk to 4 or 5 blocks from our homes because customers from the café park in front of our apartment buildings. I have seen customers have no concern parking in the private lot for the people who live in the apartments and pay for them too just as long as they can have easy access to the cafe. I have been informed by the Alderman Murphy's assistant that if I see any cars parked in the loading zone to report the matter to parking enforcement. I would also like a hearing on this matter if it is possible or to be informed when the renewal of their loading permit is so I and people from my neighbor could attend. I would like to have a revocation hearing on this matter.

Thank you very much for your time,

Andy Kapfenstein
