

## Petition of support for Adventure Rock development

We support the development of the proposed Adventure Rock climbing gymnasium at the corner of East North Avenue and Commerce Street, together with 46 apartment homes that will attach to the Adventure Rock facility.

As climbers and supporters of Adventure Rock, we firmly believe that this project will serve as a wonderful addition to the diverse, urban nature of the neighborhood. Climbers are also environmentalists. We look forward to participating in the continued protection of the natural environment along the Milwaukee River Corridor. Adding new apartments brings more people into contact with the river corridor, thereby creating a further opportunity to grow participation in the many organizations that support protection of our valued natural asset.

Many of us live in RiverWest, East Village, the Lower East Side and in the City. Having this facility in close proximity to our homes will reduce the need to travel by car and rather, we can bike, walk, and utilize public transportation to support this locally owned small business. With that in mind we urge City of Milwaukee elected officials to support and approve this wonderful opportunity.

## Petition of support for Adventure Rock development

We support the development of the proposed Adventure Rock climbing gymnasium at the corner of East North Avenue and Commerce Street, together with 46 apartment homes that will attach to the Adventure Rock facility.

As climbers and supporters of Adventure Rock, we firmly believe that this project will serve as a wonderful addition to the diverse, urban nature of the neighborhood. Climbers are also environmentalists. We look forward to participating in the continued protection of the natural environment along the Milwaukee River Corridor. Adding new apartments brings more people into contact with the river corridor, thereby creating a further opportunity to grow participation in the many organizations that support protection of our valued natural asset.

Many of us live in RiverWest, East Village, the Lower East Side and in the City. Having this facility in close proximity to our homes will reduce the need to travel by car and rather, we can bike, walk, and utilize public transportation to support this locally owned small business. With that in mind we urge City of Milwaukee elected officials to support and approve this wonderful opportunity.

## Petition of support for Adventure Rock development

We support the development of the proposed Adventure Rock climbing gymnasium at the corner of East North Avenue and Commerce Street, together with 46 apartment homes that will attach to the Adventure Rock facility.

As climbers and supporters of Adventure Rock, we firmly believe that this project will serve as a wonderful addition to the diverse, urban nature of the neighborhood. Climbers are also environmentalists. We look forward to participating in the continued protection of the natural environment along the Milwaukee River Corridor. Adding new apartments brings more people into contact with the river corridor, thereby creating a further opportunity to grow participation in the many organizations that support protection of our valued natural asset.

Many of us live in RiverWest, East Village, the Lower East Side and in the City. Having this facility in close proximity to our homes will reduce the need to travel by car and rather, we can bike, walk, and utilize public transportation to support this locally owned small business. With that in mind we urge City of Milwaukee elected officials to support and approve this wonderful opportunity.
