

February 10, 2004

To the Honorable, the Common Council

Dear Council Members:

New underground conduit is proposed to be constructed in vacated North 10th Street between West Juneau Avenue and West Highland Avenue. This installation is necessary to re-route existing conduit that will be affected by the bridges that will be reconstructed as part of the Marquette Interchange Project. With the development of Pabst City, generally located within the blocks bounded by West Highland Avenue, West Winnebago Street, North 8th Street and IH-43 Freeway, the north-south streets will be opened public right-of-way. Once North 10th Street becomes public right-of-way, this easement will no longer be necessary and becomes null and void.

This title only resolution authorizes the proper City officers to execute this agreement with the developers of the Pabst City so that the City can place underground conduit on private property (vacated North 10th Street) until such time that the public right-of-way is opened.

Very truly yours,

Jeffrey S. Polenske, P.E.
City Engineer

Mariano A. Schifalacqua
Commissioner of Public Works
