**Subject:** A data center is the WORST idea to help Milwaukee

Some people who received this message don't often get email from [hannah.jean.trafton@gmail.com](mailto:hannah.jean.trafton@gmail.com).  
[Learn why this is important](#)

To whom this may concern,

I love Milwaukee. I have lived in this beautiful city for 32 years. I have a local business that employs 6 Milwaukee citizens. I have my daughter starting school this summer in MPS. I truly believe in the city and what it has to offer.

But creating a data center WILL NOT help Milwaukee. It will not help Milwaukee reach its full potential, and WILL DEFINITELY NOT help its citizens.

The only reason this data center wants to build here, is not because of labor or jobs or potential to help the city. It is because of its geological location, they want access to our water.

Water that they will taint with forever chemicals and raise the temperatures. Ruining the fragile ecosystem. This is NOT what Milwaukee needs. And I urge you to reconsider this offer. There are better uses for this land. This land could be used to create community and jobs, something Milwaukee desperately needs.

Please do not create this data center  
Your fellow Milwaukeean,  
Hannah Pipines Trafton
